CROP QVS

Here is your CROP-QVS Guide

Connection (This reminds me of...)	Question (I wonder...)
<p>A connection is when you can relate to something in the text on a deeper level.</p> <ul style="list-style-type: none"> • TEXT-TO-SELF (NOT AS DEEP)-TEXT AND YOUR LIFE • TEXT-TO-WORLD (DEEP)-TEXT AND EVENTS IN THE WORLD • TEXT-TO-TEXT (DEEP)-TEXT CONNECTS TO ANOTHER TEXT 	<p>Every good reader asks questions while they read, but they should be mostly deeper questions, and supported with text!</p> <p>I wonder why... What caused... Why did... Why is...</p>
Reactions (This makes me feel...)	Visualization (I see, I hear, I feel, I taste, I Smell)
<p>A reaction happens when you have a strong emotional response to something in the text. It makes you feel a certain way, and you can use text to support why you feel that way.</p> <p><i>This make me feel...because...</i></p>	<p>A visualization is beautiful writing that lets you imagine your senses in your head. You need to quote the text, AND tell the audience what you see, hear, smell, touch, and/or taste.</p> <p>Good imagery should always include three senses...and amazing language.</p>
Opinions (In my opinion, I think...)	Summary: A paragraph or so telling the audience what the story, or section of the story, was about. It should be in your own words!
<p>An opinion is formed when text causes you to express your own personal thought about the plot of a story, or a character in the story.</p> <p>I thought that.....was....because In my opinion....was wrong....because</p>	<p>A summary is a shortened version of a longer text that tells the basic ideals of non-fiction and tells the basic plot points of fiction.</p> <ul style="list-style-type: none"> • Keep your summaries short • Write about main ideas, or the main plat • Use key words and points from the text, or use a thesaurus • DO NOT INCLUDE YOUR OPINION!
Prediction (I think what will happen next is....)	
<p>Predicting happens before, during, and after reading your text. The key to any good prediction is having good, solid detail and/or data to support it.</p> <p>I predict that.....because...</p>
